

Gokul Jana

Full-Stack Engineer • Web3 Enthusiast • DevOps Engineer

 Email: janagokul6@gmail.com  Phone: +91 9609756995  Location: Kolkata, West Bengal

 LinkedIn: <https://linkedin.com/in/janagokul>  GitHub: <https://github.com/janagokul6>

Professional Summary

Dynamic Full-Stack Engineer and DevOps professional with approx 3 years of experience designing, developing, and deploying scalable web applications and cloud infrastructure. Proven expertise in leading development teams, optimizing backend performance by 35%, and integrating cutting-edge technologies including AI, real-time communication, and blockchain. Strong track record in Web3 innovation, system reliability improvements, and accelerating development cycles through robust architecture and automation.

Technical Skills

Programming Languages

JavaScript

TypeScript

Node.js

Rust

Frontend Technologies

React.js

Next.js

Tailwind CSS

Three.js

Redux

GSAP

Backend Technologies

Express.js

REST APIs

PostgreSQL

MongoDB

Redis

Socket.io

WebRTC

DevOps & Cloud

Docker

Kubernetes

AWS

CI/CD

Prometheus

Nginx

Professional Experience

Full-Stack Developer (Team Lead)

Wish Geeks Techserve, Noida, UP

Apr 2024 – Present

- ▶ Developed and launched a comprehensive tech support platform featuring time-slot booking, cart-based service selection, integrated payments (PayPal, Stripe, Authorize.Net), and custom wallet system with cashback and vouchers
- ▶ Designed and deployed multi-tenant CRM with RBAC, Kanban-style lead tracking, and real-time sync from Meta Ads & Google Sheets, processing 1,000+ leads monthly
- ▶ Achieved 35% API latency reduction using Redis and BullMQ optimization techniques
- ▶ Built Astro Converse, AI-powered astrology platform with real-time chat/voice/video using Agora SDK, supporting 50+ astrologers with minute-based billing and AI-driven face/palm reading
- ▶ Implemented CI/CD pipelines with zero-downtime blue-green deployment rollbacks

Full-Stack Developer

NuBeginnings, Lucknow, UP (Remote)

Feb 2023 – Mar 2024

- ▶ Co-developed DIY platform for influencers to create and manage professional portfolios and sponsorships
 - ▶ Achieved 15% increase in user engagement within 2 months through strategic feature implementation
 - ▶ Optimized backend APIs resulting in 10% reduction in server response time, improving scalability and system reliability
-

Full-Stack Developer (Intern)

STRUGEND, Mumbai (Remote)

Dec 2022 – Jun 2023

- ▶ Integrated GPS tracking into GoBikes vehicle rental platform, improving real-time location accuracy by 7%
- ▶ Built BookedIn scheduling and rental management platform with booking calendar and Razorpay integration
- ▶ Reduced development time by 10% through collaborative debugging and code reviews

Key Projects

Shine-Quiz - Interactive Quiz Platform

Link: <https://shine-quiz.com>

Built scalable quiz platform with Google OAuth, Razorpay integration, and competitive leaderboards. Reduced leaderboard processing time by 25% and setup time by 60% through optimized admin panel design.

AstroConverse - AI enabled Astro platform with Face & Palm Reading

Link: <https://astroconverse.com>

Developed a full-stack astrology platform with real-time chat/voice/video, wallet, e-commerce, puja booking, and India's first AI-driven face & palm reading. Built a Super Admin Panel and deployed via CI/CD with Blue-Green strategy for zero-downtime scalability.

CloudIDE - AI enabled browser based IDE

Link: <https://idev2.vercel.app>

Engineered an AI-enabled browser-based IDE supporting React, Next.js, and Express with TypeScript & Tailwind options. Enabled real-time preview and AI-powered code assistance for faster development and seamless prototyping.

Education

Bachelor of Science

Vidyasagar University, Medinipur (2018–2021)

8.1 CGPA

Higher Secondary (PCMB)

Barbaria Hazra Vidyapith (2017–2018)

78.6%

Certifications

Professional Courses

Web Development Bootcamp
